INDEX

Analysis, catalytic dechlorination of heptachlo and chlordane 425
-, comparison of PCB solutions 360
-, extraction efficiency for residues in human tissue 53
-, GC/MS of residues in soils 483
-, glass capillary chromatography of 2,4-D 355
-, mercury bound to red cells affecting mercury distribution measurements 612
-, of crude petroleum by gel chromatography 44
-, of deposit and drift in crack and crevice treatments 588
-, plasticizers interfer with pollutant 291
-, portable determination of lead in painted surfaces 469
-, procedure for confirmation of specific organochlorine residues 98
-, TLC detection of diflubenzuron 702
-, stability of parathion metabolites in urine 618
Animals, DDT and methoxychlor accumulation in sheep 240
-, delayed pregnancy in mice by PCB 33
-, effect of metals on enzyme in mice 190
-, effect of subtoxic doses of lead to cattle 156
-, effect on dairy cow fed captan 474
-, intestinal absorption of PCB by 746
-, mercury uptake and distribution in crab 719
-, toxicity to frogs of tetrachlorodibenzo-dioxin 578
-, uptake etc. of chlornaphthalenes by pigs 233
-, marine, effects of metals on juvenile scallops 275
-, selenium in mussels and shrimp 339
Aquatic environment and hydrazine degradation 301
Asthma, and atmospheric variables 107
Atropine, effect on m.f.oxidase and baygon intoxication 90
Bacteria, effect of phthalates on growth of 486
Benzoxazolinone, nitrosation of 743
BHC and nodulation of peanut plants 122
Birds, behavior of ducklings from DDE fed parent 640
-, DDE poisoning in heron 310
-, growth dilution of residues in ducklings 138
-, lead in ducks dosed with lead shot 261
-, lead nitrate and open field behavior of 739
-, organochlorines in eggs of cormorants 1971-1975 399
-, organochlorine residues in 149
-, PCB's in bald eagles and chickens 182
-, toxicity of metals to chick embryos 314
Cadmium, effects of exposure on rat kidneys 572
Captan, effect of feeding to dairy cow 474
Carbaryl, effects on wild carrot cultures 325
Container decontamination by aqueous washing 528
DDE, behavior of ducklings from parents fed 640
DDT, aerial fallout in California 604
-, and methoxychlor accumulation in sheep 240

DDT effect on salmon temperature behavior 86
-, on rat plasma calcium and magnesium levels 445
-, uptake and metabolism by earthworm 541
Dieldrin removal of residues from fat of swine 567
Egg-shell thickness, effect of dieldrin and PCB on quail 379
-, effect of lead on kestrel 101
Endrin uptake and storage in mosquito fish varieties 203
Enzyme, effect of metals on mouse 190
-, effect of sublethal concentrations of zinc on fish 173
Enzymes, inhibition of succinic dehydrogenase by Mn 118
-, microsomal, induced in catfish by PCB 495
-, monooxygenase of fish as pollution indicator 270
-, rat liver microsomes activate PCB's 25
Ethylene thiourea, fate in pregnant rats 546
Fish, biological half life of endrin in 505
-, effect of DDT on salmon temperature selection 86
effect of zinc on enzyme in salmon 173
-, malathion and metabolites and toxicity in 283
-, momooxygenase as a pollution indicator in 270
-, PCB induction of microsomal enzymes in 495
-, polychlorinated styrenes in 127
-, potentiation of DEF by methylparathion in 716
-, toxicity of endrin and parathion to bass 376
-, uptake of organohalogens by 665
-, uptake and storage of endrin in mosquitofish 203
Fungicides, toxicity to freshwater organisms 214
Heavy metals in estuarine organisms 520
-, inhibition of succinic dehydrogenase by Mn 118
-, lead in roadside soil and plants 66
Herbicide, simazine residue dynamics in small ponds 1
Herbicides, analysis of 2,4-D on capillary columns 355
-, distribution when applied by mist blower 631
-, toxicity of four types to Cyclops sp. 682
Hexachlorobenzene, effect on Tetrahymena pyriformis 347
-, metabolism in rats 248
Hexachlorophene, histopathological changes in rat fed 464
Hinosan, persistence and biodegradation in soil 709
Human, children, lead exposure and immune response 112
-, extraction efficiency of residues from adipose 53
-, trans-nonachlor in tissues of 9
-, organochlorine residues in Sudanese 15
-, pesticide residues in Guatemalan mother's milk 652
Lead, and immune response in children 112
-, effect of feeding on behavior of ducklings 739
-, effect on eggshell thickness of kestrels 101
-, effect of subacute doses to cattle 156
-, in ducks due to lead shot 261
-, in highway roadside soil and plants 66
-, portable instrument for, in painted surfaces 469
Lindane, toxic effects of small doses 133
trans-Nonachlor residues in human adipose tissues 9
Marine environment and PCB distribution 477
Marine organisms, adsorption of PCB by shrimp 503
-, effect of oil on clam tissues 730
effect of oil on clam behavior 724

Marine organisms, factors affecting mercury accumulation in 164
-, heavy metals in 520
-, N-parrafins in 37
-, PCB inhibition of photosynthesis in 559
-, seasonal variations in grass shrimp 368
Mercury, acute toxicology in crayfish 422
-, binding to red cells affects measurement 612
-, factors affecting accumulation in diatom 164
-, uptake and distribution in crab 631
Metabolism of PCB by a marsh plant 454
of leptophos in rats 689
Metals, copper toxicity in Pacific oyster 658
-, effects on enzyme in mice 190
-, effects on juvenile bay scallops 275
-, trace, contamination by pH electrodes 767
-, trace, in teeth at birth 764
-, toxicity to chick embryos 319
-, uptake of Ni by Mytilus edulis 750
Mice, hemoglobin derivatives of nitric oxide and carbon monoxide 582
-, PCB effect on reproductive performance 392
Microorganisms, effect of heptachlor on S. aureus 330
-, effect of hexachlorobenzene on T. pyriformis 347
Milk, Guatemalan mothers, and pesticide residues in 652
Mutielement absorption by crops from sludge plus soil 756
Oil, analysis by gel permeation chromatography 44
-, effects on behavior of clam 724
-, effects on clam tissues 730
-, toxicity of fractions to a polychaete 18
-, toxicity of irradiated fuel 595
Organochlorine, confirmation of specific residues of 98
-, effects of methoxychlor on vitamin A 145
-, insecticide residues in Sudanese 15
Organochlorines, half-life of endrin in catfish 505
-, catalytic dechlorination of 425
-, in cormorant eggs 1971-1975 399
-, effect on eggshell thickness 379
-, effects on Staphylococcus aureus 330
-, uptake, transport, metabolism by pigs 233
-, uptake and metabolism by earthworm 541
-, additivity of chlordane and endrin residues in mortality 253
-, growth dilution of residues in duckling 138
-, residues in wild birds 149
Organohalogens, uptake by fish 665
Organomercury, pollution of a stream by 383
Organophosphates, parathion potentiation of DEF in fish 716
-, atropine effect on baygon intoxication 90
-, effect on enzymes in irradiated rats 219
-, malathion and fish poisoning 283
-, uptake by slugs 406
n-Parrafins in marine organisms 37
PCB, activation by rat liver microsomes 25
-, adsorption on shrimp 503

PCB and dieldrin effects on quail eggshell thickness 379
-, biconcnetration in Chlorella pyrenoidosa 81
-, delayed pregnancy in mice by 33
-, distribution in a marine environment 477
-, in Hudson River 436
-, in phthalocyanine pigments 417
-, inhibition of phytoplankton photosynthesis 559
-, intestinal absorption in rats and chickens 746
-, metabolism in a marsh plant 454
-, and reproductive performance in mice fed 392
-, Na^{+}, Mg^{2+}, Ca^{2+} levels in rats poisoned by 516
-, toxicity to Euglena gracilis 71
Pentachlorophenol binding by protein in rats 225
Pesticide residues in hemodialysis patients 556
Phthalates, effects on bacterial growth 485
Pollution, fecal,of Mississippi rivers 61
Polychlorinated styrenes in fish 127
Rat, DDT effect on Ca and Mg ion levels in 445
-, histopathological changes when fed hexachlorophene 464
-, metabolism of Leptopjos in 689
Rats, binding of pentachlorphenol by proteins of 225
-, effect of cadmium exposure to kidneys of 572
-, effect of malathion on cholinesterase in 219
-, fate of ethylene thiourea in pregnant 546
-, hexachlorobenzene metabolism in 248
-, methoxychlor and Vit. A liver storage in 145
-, Na, Mg, & Ca ion levels in PCB poisoned 516
Residue reduction of foliar residues by spray washing 646
Selenium in mussel and shrimp 339
Soil persistence and biodegradation of Hinosan 709
-, persistence of metamitron in 431
-, GC/MS of residues in 483
Toxicity, additivity of chlordane and endrin residues 253
-, of alkyldinitrophenols to aquatic organisms 508
-, of fenitrothion to crayfish 411
-, of four herbicides to Cyclops sp. 682
-, of fungicides to freshwater organisms 214
-, of lead to Eugelena gracilis 71
-, of lindane in small doses 133
-, of mercury to crayfish 422
-, of metal mixtures to chick embryos 314
-, of metals to chick embryos 319
-, of alpha-naphthylamine derivateives to frog embryos 626
-, of oil to a polychaete 18
-, of tetrachlorodibenzodioxin to frogs 578
Teratological studies with chlorodibenzodioxins 674
Water, effect of anaerobiosis on pulp mill effluent 208
-, PCB's in Hudson River 436
-, pollution of a stream by organomercury 383
-, simazine dynamics in small ponds 1
